

## Welcome

Dear valued key customers,

We invite you to celebrate with us on this joyous event - the birth of Nagase's e-Marketing web site. [http:// www.e-nagase.com](http://www.e-nagase.com)

We promise to open up to you a brand new perspective of looking at our company. A side of us, which is not known to many, is about to be unveiled. Read on! Let this newsletter guides you to some of the exciting things you may discover in our newborn site.

## Total Solutions

Over its hundred years of business dealings, Nagase has been reputed to be a technology-oriented company. Specifically, we furnish technology, information, services and worldwide networking to complement the products and materials we market.

Nagase's special strengths are its technologies accumulated over the hundred-year-span of global experience, and the diversified capabilities of its human talents. We are thus able to conduct market studies and offer needed technologies to both customers and suppliers. We also bring companies together for product development and production partnerships. Furthermore, we provide product and business development, wide-range planning, business proposals, supply chain management support, and technical maintenance services.

All in all, we hope to create a value web for you with our rich resources. We offer to explore together with you, any new opportunity to develop 'Total Solution', that uniquely suits your kind of competitive environment.

## Affiliates

Each of our affiliates companies has its own distinctive history and business experience. This e-Marketing site seeks to draw your attention to the unique features of the various corporate functions and technological capabilities of these affiliates and associates companies, integrated under one roof for your easy reference. Feel free to make any enquiries, through Nagase; we will gladly be the link.

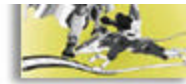

## New!

Some of you may have been dealing with us for a while, yet it may not have been made known to you that Nagase is well positioned to meet a vast scope of needs in many diversified fields, as we offer diverse product portfolios, not just contained to plastics and chemicals, electronics and machinery, dyestuff and medical products. Our new site features some of the new and innovative products and services that Nagase is capable of providing. Each of which are so unconventional that you may find it remote, to associate with the 'Nagase' that you have been dealing with.

## Products & Services

Designed with dynamism in mind, our product and services can be searched from both the product group perspective as well as from the industry application perspective. Regardless whether you are an existing client or an industry player seeking out for a suitable item, we provide comprehensive information of our diverse product portfolios, with an approach familiar to you. All products and services are linked via a well-planned channeling mechanism that directs any enquiry quickly to relevant parties in the region. We also provide self-help features whereby certain available product specification, is made accessible either through a web link or a download onto your PC.
