The corporate governance of NAGASE & CO., LTD (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

We recognize our responsibility to society and offer beneficial products and services while maintaining the highest standards of integrity. Through our growth, we will contribute to society and enrich the lives of our employees.

Based on this philosophy, we created the NAGASE Vision, which is a promise to our stakeholders that each of us will embody our value proposition to Identify, Develop and Expand to realize a sustainable world where people live with peace of mind.

To execute this Vision, we created a long-term management plan that guides us in becoming a corporate group capable of sustainable growth in the face of dramatic changes in the external environment. This plan calls for our willingness to undertake challenges for growth and to work toward the reinforcement of our business base, engaging in measures to improve corporate value over the medium and long term.

We believe that rapid decision-making, execution, and transparency are essential for us to accomplish these initiatives as we engage in strengthening our corporate governance.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Updated

Supplementary Principle 4.2(1)

With the exception of outside directors and members of the Audit & Supervisory Board, the Company’s compensation system for directors consists of basic compensation (according to title) and performance incentives (bonus).

Striving to maintain and evolve effective incentive plans, the Company has established a Compensation Committee consisting of a majority of independent outside directors. This committee ensures the propriety of our compensation system and compensation levels in light of quantitative and qualitative business results. This committee also ensures transparency and objectivity in the compensation decision-making process.

To establish a medium- and long-term incentive for improving corporate value, the Company determines an annual number of shares to contribute to the Officers Shareholding Association. Officers obtain a number of shares corresponding to their various responsibilities to be held on an ongoing basis.

The board of directors uses the Compensation Committee to design and modify the Company’s compensation system, including the ratio of compensation tied to medium- and long-term Company earnings.

[Disclosure Based on the Principles of the Corporate Governance Code]

Updated

Principle 1.4

<Cross-Shareholding Policy and Objectives>

The Company holds shares of transaction partners in only two cases: (1) Cases in which the Company foresees potential business in excess of costs of capital, the expansion of business, or synergies and (2) Cases in which the Company foresees the stable access to services indispensable to Company business activities through strengthened relationships. The board of directors conducts a comprehensive review for each share holding, reducing any cross-holdings deemed incompatible with the conditions described above.

<Exercising of Voting rights>

We exercise voting rights appropriately, carefully reviewing the resolution in question and determining approval or disapproval in a comprehensive manner according to whether the measure contributes to the increased share price of the issuing company and whether the measure contributes to our own improved corporate value as a shareholder.

Principle 1.7

Before engaging in transactions with directors or major shareholders, the Company determines whether said transaction requires a resolution of the board of directors according to the Company's Board of Director Regulations or Regulations Governing Approvals.

Principle 2.6

The Company has adopted a contract-type defined benefit pension plan, establishing and managing an Asset Management Committee which serves as a body to provide basic policies for plan management, establish policies for plan asset composition, and review said policies. The Asset Management Committee is also responsible for evaluating and reviewing the contracted investment institution.

This contracted investment institution includes the Company's labor union and uses outside consultants in plan management, ensuring transparency and objectivity. The committee manages the plan appropriately to ensure no conflicts of interest occur between plan beneficiaries and the Company.

Further, the Company has established Operating Regulations for Corporate Pension Asset Management Committee to prevent any conflicts of interest. The Company appoints a plan manager who is well-experienced in finance and investing. This individual develops greater expertise through the guidance of outside consultants and performs regular monitoring of the investment institution.

Principle 3.1

(i) , (ii)

The Company's Management Philosophy states that we recognize our responsibility to society and offer beneficial products and services while maintaining the highest standards of integrity. Through our growth, we will contribute to society and enrich the lives of our employees.

Under this philosophy, we pursue the NAGASE Vision as a promise to our stakeholders that we will realize a sustainable world where people live with peace of mind, each of us embodies our value proposition, Identify, Develop and Expand through daily activities.

To perform on these promises, we have established a longer-term management policy based on Challenges for Growth and Reinforcing our Management Platform for Growth to become a corporate group capable of sustainable growth in the midst of harsh changes in the external environment. We engage in initiatives under this policy for corporate growth over the medium and long term.

We continue to strengthen corporate governance, as the Company believes that speed in decision-making and action and ensuring transparency are essential for executing the initiatives described above.

After deliberations by the independent Nominating Committee as to the dismissal of individuals subject to any of the aforementioned standards, the board of

directors conducts celebrations and comes to a decision. The Company performs dismissal procedures as necessary, disclosing the reasons for dismissal as applicable.

*Dismissal Standards:

(1) Individual has committed an act of suspected illegality, unfairness, or bad faith, individual becomes subject to discipline under the provisions of Employment Regulations, individual has engaged in acts or speech damaging to the Company's reputation for profits, or individual has become otherwise ineligible, deemed unsuitable to serve in the capacity of corporate officer.

The Company has established standards for those matters to be decided by the president, the director in charge, division general managers, or supervisory departments. We have established systems that clarify the division of responsibilities, allowing for speed in business management. We clearly define these standards in Board of Director Regulations and Regulations Governing Approvals.

Furthermore, we have carried out deliberations into the management of the board of directors as well as a partial review of resolutions of the board of directors in order to provide sufficient time for discussion of the NAGASE Group's medium to long term management plan, strategies, and other issues; in this we have delegated authority to the executive side.

Inside directors have operational experience, knowledge, and expertise to properly understand the Company's business operations, provide agile and timely decision-making, and oversee the execution of our business. Outside directors provide insight from stakeholders and society, raising issues to be addressed by the Company.

As a part of this basic policy, currently the Company's board of directors comprises eight directors of whom three are independent outside directors, meaning these independent outside directors comprise more than one-third of the board of directors. Furthermore, we feel that the NAGASE Group pursues diversity in management, regardless of gender, nationality, or race, and we have appointed one female director. We have also ensured a certain degree of diversity from the perspective of gender and internationality, and by ensuring that many of our directors have experience of being posted overseas for a number of years (average length of overseas posting for internal directors: six years). Presently, we believe that we are able to maintain both a certain level of diversity and an appropriate size for the board of directors. However in order to ensure the effectiveness of the board of directors, we are aiming to achieve higher levels of both diversity and a more appropriate size for its composition.

Supplementary Principle 4.11(2)

Supplementary Principle 4.11(3)

The Company analyzes and evaluates the effectiveness of the board of directors, believing in the importance of improving board effectiveness on ongoing basis. Accordingly, the Company has conducted a survey of all directors and members of the Audit & Supervisory Board to analyze and evaluate the effectiveness of the board of directors. As a result, the Company confirmed that our board of directors conducts appropriate and timely deliberations and decision-making, functioning effectively.

Additionally, in response to the issue of the requirement to further expand deliberations of management strategies and important matters identified in the evaluation from the previous year's board of directors' meeting, we carried out a review of resolutions of the board of directors (delegating authority), and made improvements in order to allocate sufficient time for deliberation of important matters.

At the same time, we confirmed the need for improved discussions regarding mid- to long-term management plans and company-wide management strategies from the standpoint of further improving effectiveness.

The Company intends to continue with initiatives for improving board of director effectiveness.

The Company has determined a policy related to decisions on amounts and calculation methods for director compensation. This basic policy insures compensation is commensurate with the role and scope of responsibilities for each director and that compensation serves as motivation to improve ongoing corporate value.

Based on the preceding policy, director compensation (excluding outside directors and members of the Audit & Supervisory Board) consists of fixed compensation (basic salary) according to director responsibility and performance incentives (bonus). Performance incentive (bonus) amounts are determined according to a basic payment amount based on Company earnings for the period in question. Compensation for outside directors and members of the Audit & Supervisory Board reflects the individual's responsibilities and consists only of fixed (basic) compensation. Director compensation amounts and calculation methods are within the overall scope predetermined by resolution of the general shareholders meeting.

Director compensation is left the discretion of the representative director entrusted by the board of directors, while compensation for members of the Audit & Supervisory Board is determined according to negotiations with said members.
